

THULANE SIGASA

End User & Chromebook Support Engineer

Sandton, 2090 • +27 60 642 9587 • pharezsigasa@gmail.com

PROFESSIONAL SUMMARY

IT support professional with hands-on experience in network operations, device configuration, and end-user troubleshooting, seeking to bring this foundation into an End User & Chromebook Support Engineer role at Nutun. Combines CCNA-backed networking knowledge (TCP/IP, DNS, DHCP, VLANs, VPN) with practical Cisco lab experience, configuration and systems centralization work, and a track record of resolving technical issues efficiently to keep users and operations productive. Comfortable working directly with front-line teams, maintaining accurate documentation, and adapting quickly in fast-paced, service-driven environments.

CORE COMPETENCIES

- Network Performance Monitoring & Troubleshooting
- Basic Networking: TCP/IP, DNS, DHCP, VLANs, VPN Connectivity
- Device Configuration & Systems Centralization
- End-User & Agent Technical Support
- IT Asset Tracking & Lifecycle Management
- Service Management Systems & Ticketing
- Hardware, Software & Connectivity Issue Resolution
- Documentation & Knowledge Article Maintenance
- Cross-Team Collaboration Under SLA Pressure

PROFESSIONAL EXPERIENCE

Network Operations Centre Technician | Huawei Technologies Apr 2026 – Present

- Monitor and manage network performance, achieving 95% uptime across all systems.
- Configure and centralize system settings to standardize operations and improve reliability across environments.
- Collaborate with IT teams to diagnose and resolve issues swiftly, enhancing operational efficiency and minimizing downtime.

Full-Stack Developer | rbptech Apr 2026 – Jun 2026

- Spearheaded development of a full-stack website, improving user engagement by 30%.
- Implemented best practices in asset tracking and configuration management during project rollouts.
